ABOUT ME

Frontend Developer (Fresher) with hands-on experience in HTML5, CSS3, JavaScript, React.js, and Tailwind CSS. Skilled in building responsive, user-friendly, and modern web interfaces with a strong understanding of component-based development and UI design. Passionate about creating clean, optimized, and interactive web applications while continuously learning new frontend technologies and best practices.

PROJECTS

1. [Project Name - e.g., E-Commerce Dashboard]

- Tech Stack: React.js, Tailwind CSS, REST API
- Developed a fully responsive e-commerce web application featuring dynamic product filtering, a shopping cart, and mock payment integration.
- Utilized the Fetch API to pull data from a backend server, improving data handling and display processes.
- Designed an intuitive, mobile-first user interface utilizing Tailwind CSS, boosting user engagement by 25%.

2. [Project Name - e.g., Weather Forecast Web App]

- Tech Stack: JavaScript, HTML5, CSS3, OpenWeatherMap API
- Created an interactive weather application that displays real-time data and a 5-day forecast based on user search input.
- Managed asynchronous JavaScript (Promises, async/await) to handle API requests and error handling gracefully.
-

3. [Project Name - e.g., Personal Portfolio Website] [1, 2]

- **Tech Stack:** HTML5, CSS3, JavaScript, AOS Library
- Built a personal portfolio to showcase technical projects, skills, and contact information.
- Implemented animations and responsive layouts to ensure seamless viewing across mobile, tablet, and desktop devices.
