ABOUT ME

Frontend Developer (Fresher) with hands-on experience in HTML5, CSS3, JavaScript, React.js, and Tailwind CSS. Skilled in building responsive, user-friendly, and modern web interfaces with a strong understanding of component-based development and UI design. Passionate about creating clean, optimized, and interactive web applications while continuously learning new frontend technologies and best practices.

PROJECTS

1. Personal Portfolio Website <https://portfolio-umer-1273.vercel.app>

- Tech Stack:** React.js, Tailwind CSS, JavaScript, Vercel, CSS
- Built a modern personal portfolio to showcase technical frontend projects, skills, and contact information.
- Implemented custom slider components and interactive social card grid layouts for optimal UI/UX.
- Fully deployed on Vercel with responsive layouts to ensure seamless viewing across mobile and desktop.

2. Currency Converter

- Tech Stack:** React.js, Tailwind CSS, REST API, JavaScript (ES6)
- Developed a fully responsive currency converter application featuring real-time exchange rate computations.
- Utilized Fetch API to pull dynamic, up-to-date data from a reliable financial backend server.
- Designed an intuitive, mobile-first user interface utilizing Tailwind CSS, ensuring smooth user engagement.

3. Guess Number Game

- Tech Stack:** HTML5, CSS3, JavaScript (ES6)
- Created an interactive web-based logic game utilizing custom JavaScript algorithm structures.
- Handled component states dynamically to track user attempts and provide real-time higher/lower feedback.
